

ANTIVIBRANTI

Antivibrantes / Vibration Dampers

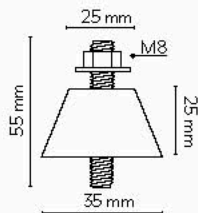

Realizzati in gomma naturale vulcanizzata con inserti metallici filettati, permettono di isolare ed in molti casi eliminare del tutto le vibrazioni prodotte dalle macchine. Forniti in buste da 4 antivibranti, completi di dadi e rondelle.

Hechos de goma natural vulcanizada con inserciones metálicas roscadas, permiten aislar y en muchos casos eliminar totalmente las vibraciones producidas por las máquinas. Se suministran en paquetes de 4 antivibrantes, completos con tuercas y arandelas.

Made of vulcanized natural rubber with threaded metal inserts, they allow to reduce and often totally eliminate the unit vibrations. Pack of 4 pieces including nuts and washers.
